All contractors must register with Village of Morton Grove prior to issuance of any permits.

Village of Morton Grove

SEWER REPAIR AND FLOOD CONTROL INSTALLATION REQUIREMENTS FOR THE VILLAGE OF MORTON GROVE

1. Sewer repairs made within five feet of the foundation wall must be performed by a licensed plumbing contractor.
2. Sewer repairs made within five feet of the foundation wall must be installed with Cast iron or Schedule 40 PVC pipe.
3. Sewer repairs or flood control systems installed within ten feet of the water Service must be installed with Cast Iron or Schedule 40 PVC.
4. For Sewer installations with ten feet or more separation between the sewer and water, SDR 26 may be used to within five feet of the foundation.
5. Damaged lead services during installation or repair of sewer will require complete replacement of lead service. Contact Public Works at (847) 470-5235

Questions concerning these installations can be referred to the Village of Morton Grove plumbing inspector by calling 847-470-5214.

7-5-5: REGULATIONS REGARDING DOWNSPOUTS AND SUMP PUMP CONNECTIONS TO SEWERS

Downspouts and sump pumps shall not be connected to any sanitary or combined sewer within the Village, but shall be discharged no more than five (5) feet downstream of the building face.

Emergency Sewer Criteria

A water/sewer repair may be classified as an **Emergency** if one or more of the following conditions exist:

- **Loss of Sanitary Service** – Plumbing fixtures within the structure are inoperable due to a sewer blockage or collapse.
- **Health Hazard** – Active sewage backup or raw sewage discharging onto the ground surface, into a structure, or into a storm drain.
- **Structural Risk** – A sewer break undermining pavement, sidewalk, or foundation, or visible ground collapse/sinkhole in the vicinity of the sewer service.
- **Verified by Inspection** – Municipal staff or a licensed plumber has verified a complete blockage or collapse that prevents sanitary service.

The following do NOT qualify as emergency repairs:

- Installation or replacement of a sewer in a new or unoccupied home
- Preventive replacement of aging sewer service without catastrophic failure
- Sewer lining or replacement where service remains operational
- Work scheduled for contractor convenience

☐ Certification of Emergency Condition

☐ By checking this box, I certify that the information provided in this application is accurate and that the sewer repair described meets the Village's criteria for an **emergency repair**.

☐ I understand that the Village may verify the emergency condition through inspection or documentation, and that knowingly misrepresenting the nature of the work as an emergency may result in **additional fees, permit suspension, or denial of future permits**.

Documentation Required:

Photo or video evidence, including the date and time the condition was discovered
